INSURRECTION IS NOT LIKELY
TO BE CRUSHED FOR SOME
TIME TO COME.

MBUSH HAVANA RECRUITS

HEELS KILL THREE, WOUND
SIX AND PUT THE REST OF
THEM TO FLIGHT.

Havana, Aug. 25.—Colonel Jose Esrampez, with forty-five recruits from Havana, was fired upon by insurgents ambushed behind a wall near Guines. The recruits were routed, three of them were killed and six wounded.

Havana, Aug. 25.—Unofficial advice received from the western part of the province of Pinar del Rio are to the effect that the insurgent forces now concentrating west of San Juan de Martinez are far more formidable than had been supposed and also are better supplied for campaigning and a long and aggressive campaign is decidedly probable. A prominent resident of Havana, whose word is beyond question, returned from a seven days' tour in the vicinity of San Luis and San Juan de Martinez. He informed the Associated Press that Pino Guerra's following in Pinar del Rio now is certainly from 1,500 to 2,000 men. He said the idea of his not having sufficient ammunition was ridiculous and that he is abundantly supplied with every possible necessity. The behavior of his force is excellent.

All the tobacco plantations owned by Americans and American properties are flying the American flag, this gentleman declared, and are not being molested. He said the insurgents had eight mules loaded with dynamite and lately they had received supplies from unknown sources. He positively declared that fully 100 members of the rural guard had deserted and joined the insurgents since the trouble began and that practically all Cubans in Western Cuba were sympathizers with the movement.

Veterans to Restore Order.

News has been received here from Santiago that General Jesus Rabi with 2,000 veterans will soon come to the Vuelto Abajo district to help put down the insurrection. This, however, is not confirmed.

The government's extra expense since Aug. 12 has been \$2,000,000.

The critics of the government privately ridicule the plans of the government to bring rapid fire guns to the island, asserting experience with these guns in the island proved their uselessness in the field. They are valuable, however, for the protection of towns and cities. The government has sent agents to Texas to buy 2,000 horses for the army. It has already about 500 horses here.

The government has cabled to General Rius Rivera, minister to Central and South American countries, to return immediately to Cuba. The re-

Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nervous mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nerve tonic, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitement, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensation, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the frontiersmen, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "Favorite Prescription" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

ported arrest of Orestes Ferrera is denied, but it is admitted that he is under surveillance.

General Jose Miguel Gomez, in his formal arraignment, denied the allegation that he had engaged in conspiracy against the government.

There is no foundation in fact for the rumor in circulation that the government has been negotiating with Pino Guerra.

More troops will be forwarded to the western districts. While the troops were being conveyed by railway train from Pinar del Rio to San Juan de Martinez ordinary traffic on the railroad was suspended. There is grave doubt if the force of government troops now at San Juan de Martinez would be able to withstand an attack by the forces of Pino Guerra.

Aside from slight encounters in the provinces of Havana and Santa Clara, nothing of importance has transpired there.

President Palma Hard at Work.

President Palma has not left the palace this week. He is constantly receiving reports, holding consultations and issuing orders. He is assisted in his work by his two right-hand men in the cabinet, Font Sterling, secretary of the treasury, and General Montalvo, secretary of public works, who since the resignation of Senor O'Farrill, secretary of state and justice, divide the duties of those offices between them. The three continue at their work until nearly morning. President Palma bears the strain of his labors remarkably well and does not appear especially fatigued in spite of the arduous nature of the duties he has performed for the past four years, contending most of the time with a hostile congress. The president is hopeful of the outcome and is confident of the loyalty of Cubans in general.

The enlistment of rural guards and volunteers is going on very slowly in the provinces, but in the city of Havana enlistments are somewhat better. The government expects that the steamer Mexico, which sailed from New York Saturday, will bring eighteen rapid-fire guns, 10,000,000 cartridges and 12,000 Lee rifles.

Tomas Estrada Palma, Jr., has joined the Havana city militia.

At San Antonio de Los Baños, Havana province, and situated twenty-one miles southwest of Havana City, a detachment of rural guards Friday encountered a band of insurgents. Of the latter two were killed, their comrades dispersing.

INSURGENT FORCES RETIRE.

Cuban Government Troops Occupy San Juan de Martinez.

San Juan de Martinez, Aug. 25.—This town, which on Thursday was occupied by a band of insurgents under command of Pino Guerra, is again in possession of the constituted forces of the republic. At 5:30 o'clock Friday evening the troops under command of Colonels Baccallao and Avalo arrived here from Pinar del Rio, but news of their coming had preceded them by several hours and by noon the last of Guerra's men had left, taking with them all the baggage they could gather. The government troops now here consist of 250 artillerymen and 50 raw recruits. They are quartered in the churches and public buildings. The town is quiet.

Guerra's force is larger than has been supposed. He has probably 2,000 men, well equipped with arms and ammunition, and is well supplied with money. Guerra's movement westward is not a retreat nor is it with the purpose of occupying Guines. That town is, in fact, practically occupied by insurgent forces. Guerra's purpose is to effect a junction with several hundred insurgents coming eastward.

LIBERAL PARTY HOLDS ALOOF.

Will Take No Action Unless Cuba's Independence Is Menaced.

Havana, Aug. 25.—In an interview here Alfredo Zayas, vice president of the senate and leader of the Liberal party, said:

"The Liberals will take no action or make any official statement with regard to the present revolt unless the independence of Cuba should be menaced by the actions of the revolutionists or the government, which would be likely to bring outside interference."

Senator Zayas admitted that it was true that the majority of the insurgents are Liberals, but claimed that there are also Moderates among the insurgents. The Liberals, he said, always have been opposed to resort to arms and did not countenance the present method of protest against the manner of the holding of the last elections.

VIRTUALLY A PRISONER.

President Palma Has Not Left the Palace for a Week.

Tampa, Fla., Aug. 25.—The steamship Gussie, arriving here from Havana, was loaded to full capacity with tobacco, which is being rushed out of the island by importers.

Information received from private sources by this boat state that President Palma is virtually a prisoner in the palace at Havana and that he has not left it for a week. Indications are

that the situation on the island is much worse than is known to the outside world. The revolution has also extended into Santa Clara province and has broken out in Matanzas.

City Entrances Guarded.

Pinar del Rio, Cuba, Aug. 25.—Affairs here are quiet. Groups of six civilians and municipal guards are posted at the city entrances. The forces available for the defense of the city number 200 mounted rural guards, 200 new rural guards, 200 new police and 200 municipal guards.

Quiet at Santiago.

Santiago, Cuba, Aug. 25.—Complete tranquillity prevails in this locality. Veterans of the war for independence are organizing in some of the towns and offering their services to the government.

Negroes May Join Rebels.

Tampa, Fla., Aug. 25.—A secret society of Cuban negroes with about sixty members has been formed here, the reported purpose being to go to Cuba and join the revolutionists.

THROUGH LOVE FOR A GIRL.

Youth Who Is Alleged to Be a Diamond Thief Is Caught.

New York, Aug. 25.—Louis Mochorsky is in jail here charged with stealing \$5,000 worth of diamonds several months ago. Mochorsky, who is but seventeen years old, afforded the police of many of the states of this country a vain chase and then went to Europe. It was only love for a girl in Denver whom he ventured back to the United States to see which led to his arrest. The boy was employed by Isaac Wolf, a Bowery jeweler. One day Wolf missed a number of diamonds. Wolf remembered the clerk the evening before had helped him place the diamonds in a safe, and this, coupled with his failure to report to work, led the jeweler to suspect him. Detectives traced the youth to Philadelphia, Chicago and Denver. In the Colorado capital Mochorsky met the young woman, affection for whom led to his capture.

From Colorado he went to Russia and Berlin. From the latter place Wolf avers the boy wrote him, saying: "I took only my share of jewelry."

The Denver police were notified to keep a lookout for the missing clerk. About ten days ago Mochorsky returned to Denver and went to his sweetheart's home. He was arrested and brought here.

Dies From Heat.

Cedar Rapids, Ia., Aug. 25.—Christian Springer was overcome by heat Friday and died in five minutes. Thomas Skala was stricken and has been unconscious for twenty-four hours.

FALL TRADE STILL EXPANDS.

Buyers Are in All Leading Markets in Large Numbers.

New York, Aug. 25.—Bradstreet's review of trade says fall trade has still further expanded, buyers are in all leading markets and are operating freely, despite temporary checks caused by hot or rainy weather. The same is largely true of industrial operations, which go forward with a steadily increasing volume of output and with available capacity in leading lines booked far ahead. The latter condition is perhaps best illustrated by reports from the iron and steel and cotton goods industries, which are in a very strong position with prices tending upward and mills pushed to meet demands for delivery. The situation in cotton goods is particularly noteworthy in view of the declining trend of the market for raw cotton. In the iron and steel industry all records for August have been eclipsed and some lines report the month to have been the best ever witnessed. Retail trade is quiet, the time for shifting to fall displays having arrived, although some jobbers report reorders for summer goods in excess of supply. Crop reports are still favorable to a record yield.

RECEPTION TO W. J. BRYAN.

Anti-Trust League Intends to Control Arrangements.

New York, Aug. 25.—Harry W. Walker, who has had an active part in arranging the reception to be given to W. J. Bryan by the Commercial Travelers' Anti-Trust league on Aug. 30, has given out a statement to the effect that politicians headed by Alexander Troup of Connecticut and Norman E. Mack of Buffalo are trying to control the movement and that the league will control the arrangements for the reception even if it has to tell the politicians to retire.

"Mr. Bryan accepted the invitation from the Commercial Travelers' Anti-Trust league," said Mr. Walker, "and we think that he will appear there as stated."

Crosby Wins Handicap.

Denver, Aug. 25.—W. R. Crosby, leading with a score of ninety-seven targets, carried off the honors of the Western handicap, the feature and final event of the tournament of the Interstate Trapshooters' association.

INDICTS OIL OCTOPUS

FEDERAL GRAND JURY AT JAMES TOWN, N. Y., RETURNS MORE TRUE BILLS.

ACCEPTED UNLAWFUL RATES

STANDARD OIL COMPANY WAS GIVEN LOWER RATES THAN OTHER CONCERNS.

Jamestown, N. Y., Aug. 25.—The New York Central Railroad company was indicted by the Western New York federal grand jury Friday afternoon on a charge of giving discriminating and unlawful freight rates on shipments of oil by the Standard Oil company and of unlawfully failing to file a schedule of such rates with the interstate commerce commission at Washington. The Standard Oil company was again indicted on a charge of accepting unlawful and discriminating freight rates on shipments of oil over the Pennsylvania, New York Central and the Vermont Central railroads.

The indictments are closely related to those found by the same jury two weeks ago against the Standard Oil company and the Pennsylvania in the matter of discriminating rates for oil shipped by the Standard from Olean to Burlington, Vt. All of such shipments were over the Pennsylvania from Olean to Rochester; over the New York Central from Rochester to Norwood, N. Y., and over the Vermont Central from Norwood to its destination.

Friday's indictment specifies that the New York Central made a special rate to the Standard from Rochester to Norwood of 9 cents per hundred weight, while such rates were not given to other shippers nor was a schedule of the same filed with the interstate commerce commission.

In the indictment against the Standard Oil company returned Friday there were 123 counts; each count relating to a separate and distinct shipment of oil over this route, all at rates approximating 15 cents per hundred weight, while rates for similar shipments from Bradford, Warren, Oil City and Titusville to Vermont were 33 cents per hundred weight. These shipments, it is alleged, were under substantially the same conditions, while the alleged discriminations accepted by the Standard Oil company of more than 15 cents per hundred weight were out of all proportion to reason and fairness considering the additional distance from the Pennsylvania towns to Vermont.

The indictments were accepted by Judge Hazel and the jury was discharged with the thanks of the court.

THE COST OF INSURANCE.

Commissioners Believe It May Be Materially Lowered.

St. Paul, Aug. 25.—The cost of insurance will be materially lowered, insurance commissioners believe, if a bill approved by the insurance commissioners at their session Friday meets with the approval of the various legislatures next winter. The bill, which requires an annual apportionment and accounting of surplus of life insurance companies, it is maintained by many of the commissioners, strikes at the root of all evil in life insurance company management by holding their officers accountable for the enormous surplus funds accumulated under the deferred dividend contracts, under which nearly all of the large companies operate.

The matter of the apportionment of the surplus was brought before the committee in a report presented by Zeno M. Host, insurance commissioner of Wisconsin.

JURY UNABLE TO AGREE.

Stood Ten to Two for Acquittal of Alleged Mob Leader.

Springfield, Mo., Aug. 25.—The jury in the case of Dave Galbraith, the alleged leader of the mob that lynched and burned three negroes here in April last, and who was on trial charged with second degree murder, was discharged by the court when it was reported that its members were unable to agree. The jury had considered the case for more than twenty-four hours. After the jury was discharged its members freely admitted that the vote stood ten for acquittal and two for conviction. Twenty ballots were taken without a change. The defense announced it was ready for a new trial immediately. It is not believed, however, that the state will try the case again. Governor Folk and Attorney General Hadley assisted the prosecution.

H. F. MICHAEL CO.

NOT SEEKING A FOREIGN LOAN.

Russia's Finances Are at Present in Fair Shape.

St. Petersburg, Aug. 25.—Finance Minister Kokovsov has authorized the Associated Press to deny categorically the constantly recurring reports, both at home and abroad, that Russia intends to enter the foreign market for a new loan this autumn.

"The government," said the minister, "has ample funds in sight to tide over the present year. The only loan operation contemplated, namely, the \$25,000,000 imperial loan for famine relief, was consummated Friday by the signature of the emperor. This loan is already being taken by the government's savings banks. Even if we desired it we realize that no foreign loan could be advantageously floated without the assent of parliament, and you may state emphatically that the government will not try again to contract a foreign loan until parliament approves it. Fortunately the treasurer can see daylight ahead until parliament again assembles. Indeed the financial situation as it now stands is better than we could have anticipated. The surplus for the first six months of the current year will exceed the estimates by \$5,000,000, and as the last six months always are the best from the revenue standpoint the excess for the year should exceed \$100,000,000, more than sufficient to meet the extraordinary expenditures in connection with the suppression of the revolution, which indirectly has cost in the neighborhood of \$5,000,000 a month."

It was further explained by M. Kokovsov that the big project for the distribution of 25,000,000 acres of land among the peasants, upon which the government has decided to immediately embark and from which great hopes of measurably appealing to the discontented peasantry have been built, does not involve any charge upon the treasury. The peasant bank will take care of the land finance matter.

COMMUTES DEATH SENTENCE.

Threat of Peasants' Union Scares General Kaulbars.

Odessa, Aug. 25.—Governor General Kaulbars has for the first time annulled a courtmartial's death sentence. The case was that of a peasant named Rymsha, whose political offense was commuted to ten years at hard labor. It is rumored that Kaulbars received a letter from the peasants' union threatening him with death if he confirmed the sentence.

The governor general has established a new street guard of about 550 men, whose wages the house owners are compelled to pay.

MUTINY AT ODESSA.

Sappers Resolve Not to Fire Upon Revolutionists.

Odessa, Aug. 25.—The Eleventh and Twelfth sapper battalions encamped at the summer camp near Odessa mutinied Thursday night. They assembled at a political meeting, singing the

"Marsellaise" and passed a resolution not to fire on the revolutionists if called upon. Officers of the battalions who tried to break up the meeting were beaten by the soldiers.

Peasants Lynch Incendiaries.

Samara, Aug. 25.—The peasants of the village of Kamenka seized four men suspected of setting fire to farmhouses and barns, lynched two of them and beat the others almost to death.

PREPARING FOR TROUBLE.

Military Authorities Send Troops to Vicinity of Brownsville.

Austin, Tex., Aug. 25.—The International and Great Northern Railway company has received orders to be ready to provide a special train to carry troops toward the Mexican border. The commanding officers state that the troops when they leave here will go to San Antonio to garrison the post there, which has been short-handed since the troops there were ordered to Brownsville.

San Antonio is convenient to Brownsville and it is believed that the troops will be sent there that they may quickly reach Brownsville should further trouble develop.

CAUSE NOT ASCERTAINED.

Battalion of Troops Ordered to Fort Brown.

Austin, Tex., Aug. 25.—Governor Lanham has received advice from Ranger Captain McDonald, now at Brownsville, saying the officers at Fort Brown were preparing to leave there with negro soldiers against whom warrants had been issued. The governor immediately communicated the contents of the telegram to General McCaskey. Shortly afterwards General McCaskey issued orders for a battalion to proceed at once to Fort Brown. The cause of ordering these troops to Brownsville was not ascertained.

ACCIDENTALLY SHOOT A MAN.

Oklahoma Girl Then Fatally Wounds Herself.

Andarko, Okla., Aug. 25.—Annie Dressback, aged sixteen, shot Newt Mulliken. She accidentally discharged a revolver and, then believing she had killed him, shot herself. Both will die.

Girls Docked for Praying.

Chicago, Aug. 25.—Four girls have been discharged from the Zion City lace factory for failing to obey a rule requiring them to pray during work hours, but to do so on their own time. It has been the custom to deduct from the pay of the girls for the time spent in prayer.

Postmasters Elect Officers.

Detroit, Aug. 25.—The National Association of Postmasters of the second and third class concluded its convention by electing as president William Noble, Oklahoma; secretary and treasurer, H. A. Hopkins, St. Clair, Mich.

SAN FRANCISCO CONFLAGRATION.

"The confident announcement made that our home office would furnish the needed funds to maintain the surplus of our United States branch has been fully realized, the Home Board having passed a resolution clearly expressive of that intention, and in furtherance of this, remittances have been made to date to our San Francisco office of \$3,460,000, all drawn from abroad.
"We have made settlements with 167 of our claimants up to the date of our last advice, August 9th, amounting to \$3,432,964.00, and by the close of this month fully ONE MILLION will be added to that total. Every loss has been paid immediately on adjustment, and this course will be strictly followed until our last liability has been discharged.
"The honorable record made by this Company in the large conflagrations of Chicago, Boston, Baltimore and San Francisco we believe should commend the policies of this Company to all desiring first-class indemnity, and we confidently ask that we be judged on our record and favored with whatever confidence we may deserve."

OLE MAUSTEN has filed for the republican nomination for state senator in the Aitkin-Itasca-Cass district. D. M. Gunn seems to have the call on the

nomination but Mauston will try conclusions with him.

IN THE campaigns of two and four years ago the opponent of Mr. Buckman was the friend of special interests. The first contest was a close one. Mr. Buckman served part of a term and when he came up for a second nomination he won an overwhelming victory against the same candidate and the same false charge. He has served two years since then, and his record further proves that such charges cannot stand against him. His record was satisfactory that of all the prominent and experienced public men throughout the district not one could be found outside of Morrison county who could hope to defeat him for a third term. He had made good, and is today stronger in the Sixth district than ever before.—Little Falls Transcript.

St CLOUD has a new postmaster in the person of C. D. Grinols whose name was sent to the department Friday by Congressman Buckman. The gentleman succeeds James A. Martin whose resignation some days ago gave the newspapers of the Sixth district a chance to fill considerable space. Mr. Grinols is one of the most popular citizens of Stearns county and to use the expression of the St. Cloud Journal Press "it will be conceded by all that Congressman Buckman has used good judgment in his selection." Frank Tollman, of Paynesville, has also been named as register of the land office at St. Cloud to succeed M. D. Taylor who has resigned to become a candidate for district judge to succeed Judge Searle. St. Cloud has been made the storm center of the Sixth district congressional fight and while much has been written by the political enemies of Mr. Buckman regarding the outcome of the appointments to be made it will be seen that he has made good and has selected men for their fitness for the places and who are entirely acceptable to the people they are to serve.

THE DISPATCH prints today a sketch
of the state of Minnesota showing the
suggested system of state roads as ad-
vised by the state highway commis-
sion and its engineer, Geo. W. Cooley,
of St. Paul. Mr. Cooley stated when
here that the first map, which showed

BOMB EXPLODES IN PALACE

SPECIAL TO THE DAILY DISPATCH:

St. Petersburg, Aug. 25, 2:40 P. M.—

A bomb exploded today in the residence
of Premier Stolypin killing and wound-
ing a number of persons. The Premier's
son was among those wounded, but Pre-
mier himself said to have escaped injury.
About fifty persons killed or wounded
by bomb explosion the dead including
General Zameatin, Premier's personal
secretary, and Colonel Stein who was
chief police at Tauride palace where
the lower house of parliament met; the
house was nearly destroyed.

RIVER CONGRESS IS CALLED

Mayor Jones, of Minneapolis, An-
nounces Date of the Meet-
ing of the Association

BRAINERD SHOULD BE THERE

This City Much Interested in the
Improvement of the Upper
Mississippi

Mayor Jones, of Minneapolis, has an-
nounced that the Upper Mississippi
River Improvement Association has
been called to meet at that city October
9th and 10th. As a Brainerd man put
it, this city should be represented, not
by a delegation, but by an army. The
only way to get the dead heads taken
out of the river and getting it otherwise
improved, is to go down there with a
big delegation and make a big fight.

I therefore invite in the name of Minne-
apolis, representatives from all business
interests from the northwest, and from
the river states to the south, and espe-
cially all congressmen who can possibly
attend, to be present at the coming con-
vention. I would urge on all newspapers
to repeat this invitation and to extend
this call to every business man who may
take an interest in these matters.

"All communications regarding enter-
tainment may be addressed to W. G.
Nye, secretary of the public affairs com-
mittee of the Commercial club. Cor-
respondence relating to the coming busi-
ness of the convention may be sent to
the Minneapolis member of the execu-
tive committee of the association, A. L.
Crocker, 314 315 Bank of Commerce
building.

—David P. Jones, Mayor.

But now they're wiser said one to me,
And give instead Rocky Mountain

A Milking Contest

A brand new idea at the Minnesota
state fair this year is a milking con-
test for short horn cows. It will be con-
ducted under careful regulations. Prizes
amounting to \$400 have been offered.
Special premiums are also offered for
Minnesota short horns while for short
horns in general classes thousands of
dollars are waiting to be earned by blue
ribboners. The fair opens Monday,
Sept. 3.

STRAY LEAVES

From a Reporter's Note Book.

Some time ago the city fathers con-
demned the Laurel street bridge and
posted notices announcing that fact
and nailed boards across the ends of the
bridge. In fact this same thing had
been done before the accident which
involved the city in a damage suit, if
we are not misinformed. But the
boards had been torn down and the
signs destroyed, before the accident.
After the accident the council again
ordered the bridge closed and again the
street commissioner put up signs and
barriers, but the signs have been de-
stroyed and the barriers have again
been removed so far as foot travel is
concerned. What taxpayers are inter-
ested in is to know if the city would
be liable in the event of another acci-
dent.

The work of paving of portions of
North Broadway and Kingwood streets
is nearing completion and the appear-
ance of that portion of the city is very
much improved. Now if the weeds on
the vacant lots and along the streets
were cut our city would wear a tidy ap-
pearance. No little thing makes a
greater difference in the appearance
than does the matter of weeds on lots
and streets and it is a matter easily at-
tended to if each one will do his part.

This is the kind of weather that
brings out some striking combinations
of apparel. The peek-a-boo waist
peeking up over the top of a heavy
cloak is something incongruous and it
is a question which looks the colder,
the barefooted boy or the young miss
with a long expanse of white stockings
visible.

The people that had cold feet last
spring and sold property in the mill dis-
trict for a song are looking around now
for a patent kicking machine to use on
themselves.

Lots of citizens are closely allied to
Josh Billings, they are as willing to
sacrifice the business of the local paper,
in the advocacy of their ideas as that
philosopher was to sacrifice all his
wife's relations to put down the rebel-
lion. It is an every day occurrence for
a reporter to be asked to touch up this
or boost that, or roast the other, yet if
the person making the request is asked
to sign his or her name to an article
along the line wished, nine times out of
ten, the response will be that they
would not have their name used on any
account. Is not this a little inconsis-
tent?

however, does not finally or necessarily

the county commissioners of the county
through which the roads pass. The
state commission, however, has the dis-
tribution, within certain limits, of the
state appropriation, and they will make
no recommendations for additional
funds to roads that do not form part of
a continuous and harmonious system.

It is necessary, therefore, for the
counties along the roads proposed to
get together and designate roads that
will fit in with each other that they may

At the Bijou.

There was a change of program at
the Bijou last night. The new bill
is a corker and presents some dandy
features. The first number is "Swim-
ming the Whirlpool Rapids, Niagara
Falls." This is followed by the "Hen-
pecked Husband," and the "Lost Dog."
The song "The Star and the Flower" is
sung by Mr. Murphy with effect, the il-
lustration being very fine. The other
numbers are the "Crystal Casket" and
the "Flat Dwellers."

On Monday there will be another
complete change. The first number
will be "From Cairo to the Pyramids,"
"The Witch" will follow and the illus-
trated song "Dear Old Dixie" is a
beauty and will be well sung. "Behind
the Stage" and "Winter Straw Ride"
will be the closing numbers.

The following is the call for the con-
vention:

"On Oct. 9 and 10, the annual conven-
tion of the Upper Mississippi River Im-
provement association will be held in
this city. This association covers five
great states and its power is recognized
in Washington. At its approaching
session matters of great importance to
Minneapolis as well as to Minnesota,
and to the whole Mississippi valley, will
be considered. Through the efforts of
this association the United States en-
gineers have a survey which shows that
a six-foot low-water channel is feasible,
and at practically no more cost than the
four-foot channel heretofore planned for.
Every foot of depth means much to
the traffic of Minneapolis and the
northwest.

"Allied to the navigation question is
another which has peculiar and local
interest to the manufacturing of this
city and the state of Minnesota. Many
important waterpower manufactories
are growing up in this state, and both
navigation and these must depend in
drought seasons for much of their value
on the United States storage reservoirs
at the head waters of the Mississippi
river and its tributaries. The develop-
ment and management of these to se-
cure the greatest storage capacity, and
to avoid floods, such as have occurred
in Aitkin county, will be fully consid-
ered at this convention.

"Great manufacturing plants are
crowding the banks of the Mississippi
river; rapid and enormous growth in
business and population is going on in
the whole Mississippi valley, it is cer-
tain that the Panama canal will be
opened in the not distant future, form-
ing a vigorous stimulant to the great
valley of which Minneapolis is the
northern rail and water way. Minne-
apolis should profit more by an improv-
ed river than any other city, and should
take interest and participate largely in
the coming convention. The Commer-
cial club of this city has generously ex-
tended the hospitalities of Minneapolis
to our expected guests.

"We desire that these guests be as
numerous and influential and widely
representative as possible, with a view
to achieving substantial results in popu-
lar education and congressional action.

TO RISE FROM RUINS

CITY OF VALPARAISO WILL BE REBUILT ON FINER LINES THAN BEFORE.

THOUSAND CORPSES BURIED

AND SAME NUMBER OF BODIES STILL LIE BENEATH RUINS OF BUILDINGS.

Valparaiso, Aug. 25.—As the result of the splendid courage of the people and with the co-operation of the city and government, Valparaiso will be rebuilt within a few years on finer and more beautiful lines than before the disaster of Aug. 16.

The rain at night caused most of the people to desert the tents which they have occupied since the earthquake and return to their houses. Almost all the walls are cracked, but there was no violent earth tremors during the night or day. Many of the people had to walk long distances, carrying bedclothes on their shoulders.

There are no conflagrations, but the blowing up of damaged and dangerous structures with dynamite continues and loud explosions are frequently heard. Otherwise the town has assumed an almost normal appearance. Many of the business houses have reopened.

One thousand of those killed by the earthquake have been buried and there are more than 1,000 corpses beneath the ruins.

For relief purposes the city has been divided into ten sections, so that assistance may be extended systematically to those who require it. Provisions are abundant. Several of the consuls here have received orders from their governments to send home such of their countrymen as have not the means to pay their own passage. Sheds are being constructed for the sheltering of the destitute.

Government engineers from other provinces have been ordered to come to Valparaiso to assist in making plans for the reconstruction of the city.

Summary punishment is meted out to those who were caught stealing and has stopped robberies.

The import duties on foodstuffs have been temporarily suspended.

Street traffic was paralyzed Friday by a heavy rain, which also caused much damage to buildings weakened by the earthquake.

RIOT ON RACE TRACKS.

La Follette's Audience and Horsemen in a Fight.

Reedsburg, Wis., Aug. 25.—A riot on the race tracks in front of the grand stand of the Reedsburg fair grounds at noon Friday prevented Senator Robert M. La Follette from concluding his speech.

The trouble came as a result of a conflict between the horsemen, who insisted upon trying out their horses preliminary to the afternoon races and spectators who crowded upon the track to prevent the disturbing of the senator's speech.

It was a general melee, continuing for half an hour, in which the contending forces exchanged blows and struggled back and forth.

On the one side were some of the horse owners and stable employees and others, while those who pressed to hear the speaker attempted to put a stop to the trying out of the horses.

One man was seriously injured.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address—F. J.
